PROFESSIONAL SUMMARY

Senior Product Manager specialising in cross-border payments and emerging markets expansion. Over 5 years in fintech, I have taken products from zero to live across six markets, built payment infrastructure that generated \$600K in revenue within eight months, and scaled a global expansion product to process over \$1M in total payment volume. I build financial products that work in the markets businesses find too complex to enter.

PROFESSIONAL EXPERIENCE

Nomba Financial Services

Lagos, Nigeria

Product Manager

April 2023 – June 2026

B2B fintech with \$58.5M in funding, providing payment infrastructure and solutions to 1M+ businesses

- Served as the founding PM for Nomba's global business expansion, taking a product from zero to live across six markets in under six weeks: UK, Canada, France, Belgium, Germany, and DRC.
- Scaled the expansion product to process over \$1M in total payment volume across four currency corridors within twelve months of launch.
- Built the DRC payments infrastructure from scratch, launching a cross-border corridor that generated \$600K in fee revenue within eight months.
- Owned end-to-end product strategy, roadmap, and delivery for Nomba's Global Payouts and Collections API product, collaborating with engineering on system design and validating API workflows.
- Owned end-to-end roadmap and delivery for Nomba's Global Payouts and Collections API, enabling businesses to integrate cross-border payment capabilities.
- Managed developer experience through sandbox testing, payload reviews, and merchant troubleshooting, reducing time-to-integration to under a week and maintaining 99% uptime across live corridors.
- Built and scaled a multi-currency wallet, increasing daily active usage by 20% and cross-currency transactions by 10% within the first months of launch.

Payfinancials Technology

Lagos, Nigeria

Product Manager

October 2022 – March 2023

Techstars-backed Buy Now Pay Later fintech.

- Developed go-to-market strategy for Canada expansion, aligning product, compliance, and partnership workstreams for market entry.
- Reduced bug rates and improved conversion through data-driven decision frameworks, improving product outcomes by 25%.
- Launched a gamification and rewards feature that increased user retention by 10%.

Top Metrix Media Solutions
Product Manager

Lagos, Nigeria
January 2021 – September 2022

- Managed end-to-end delivery of five concurrent media products, improving on-time delivery by 30% and reducing project costs by 20%.
- Led a cross-functional team of 15+ to launch a multi-channel content product that increased audience engagement by 40%.
- Introduced a structured product management framework, improving delivery efficiency by 25% and reducing tracking errors by 35%.
