PROFESSIONAL SUMMARY

Product Manager specialising in cross-border payments, fintech infrastructure, and emerging market expansion. Over 5 years of experience building financial products across complex markets, including launching products across six countries, developing payment infrastructure in the DRC, and scaling solutions that generated millions in transaction volume and revenue. Experienced in product strategy, market expansion, partnerships, and cross-functional execution.

PROFESSIONAL EXPERIENCE

Nomba Financial Services

Lagos, Nigeria

Product Manager, International Expansion

April 2023 – Present

Nomba is a B2B fintech building payment infrastructure and financial solutions for businesses across emerging markets.

- Led product strategy and execution for international payment expansion across six markets (UK, Canada, France, Belgium, Germany, and DRC), taking products from concept to launch within six weeks.
- Built DRC's local payment infrastructure through partnerships with 3 mobile money operators and 3 banks, launching an interoperable platform used by 3,000+ agents, developers, and merchants to process local transactions.
- Led the development and scaling of DRC's cross-border payment infrastructure, partnering with banks, payment providers, compliance, and engineering teams to launch payment capabilities that generated \$600K+ in revenue within eight months.
- Expanded payment capabilities across four currency corridors, scaling the global expansion product to process \$1M+ in total payment volume within twelve months of launch.
- Owned API payment products supporting external integrations, including authentication, webhooks, transaction status, and settlement flows, maintaining 99% uptime for partner-facing payment services.
- Launched a multi-currency wallet supporting USD and CDF payments within five weeks, increasing daily active users by 20% and cross-currency transactions by 10%.

Payfinancials Technology

Lagos, Nigeria

Product Manager

October 2022 – March 2023

Payfi was a fintech platform providing digital financial services including buy-now-pay-later solutions and payment products.

- Developed go-to-market strategy for Canada expansion, aligning product, compliance, and partnership workstreams to support market entry.

- Owned roadmap execution for lending and payment products including BNPL, Ride Now Pay Later (RNPL), virtual wallet, and bill payments.
- Improved product outcomes by 25% through data-driven decision frameworks that reduced bugs and optimized conversion across customer journeys.
- Designed and launched a gamification and rewards experience that increased user retention by 10%.

Top Metrix Media Solutions
Product Manager

Lagos, Nigeria
January 2021 – September 2022

- Managed delivery of five concurrent media products, improving on-time delivery by 30% and reducing project costs by 20%.
- Led a cross-functional team of 15+ to launch a multi-channel content product that increased audience engagement by 40%.
- Introduced product management frameworks that improved delivery efficiency by 25% and reduced tracking errors by 35%.
